## **ELECTION OF SPECIES**

1. Claims 1-32 are generic to a plurality of disclosed patentably distinct species comprising a targeting entity which binds to a site of a pathology, a linking carrier, and a therapeutic entity. In particular, the therapeutic entity may be an antibody, drugs, toxins, prodrugs, or a radioactive isotope to name a few. Possible linking carriers include liposomes, polymerized liposomes, other lipid vesicles, dendrimers, polyethylene glycol systems, polylysines, capped polylysines, poly(hydroxybutyric acid), dextrans, and coated polymers to name a few. Similar, possible targeting entities include antibodies, peptides, small molecule ligands, and carbohydrates to name a few. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

**Note:** Applicant is respectfully requested to elect a single disclosed species for examination purposes. The single species should identify (a) the site of pathology; (b) the targeting entity; (c) the linking carrier; (d) the therapeutic entity; (e) if applicable, the chelating group; (f) if applicable, the stabilizing entity; (g) if applicable, the additional material encapsulated in the linking carrier; and (h) if applicable, the additional materials attached to the surface of the linking carrier. In addition, Applicant is respectfully requested to identify which claims are directed to the elected species.

2. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the

case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to D. L. Jones whose telephone number is (703) 308-4640. The examiner can normally be reached on Mon.-Fri. (alternate Mon.), 6:45 a.m. - 4:15 p.m..
